This registration is for free. It is necessary and obligatory in order to get a medical care in the Czech Republic.

Please bear in mind, that your European health card insurance (or with the E111 form and Provisional certificate) don't cover non-urgent treatment, or medically assisted transport home following serious illness or injury entitles and for these eventualities we recommend you take out **extra medical or commercial travel insurance** with an insurance provider in your home country.

Students from non-EU countries do not register their insurance cards and they solve the payment for medical services directly with their insurance company according their insurance conditions. (These students must have a valid international medical insurance plan, or they must expect to pay cash for all medical care.)
