

**Pathological physiology II**  
**3<sup>rd</sup> year, general medicine**  
**Program of practical exercises**

Winter semester 2023/2024

Department of Pathophysiology, UNIMEC I

<b>Week</b>	<b>Topic</b>
1	Pathophysiology of motor function
2	<b>A:</b> Spirometry, hypoxia
3	<b>B:</b> Functional capacity and adaptations of the cardiovascular system. Step test, Letunov's test,
4	<b>C1:</b> Pathophysiology of cognitive functions and behavior
5	<b>C2:</b> Pathophysiology of the cerebellum and ataxias
6	EEG, epilepsy. Stereotaxis
7	<b>A:</b> EEG, stereotaxis
8	<b>B:</b> Pathophysiology of wounds - repetition
9	<b>C1:</b> ECG - repetition
10	<b>C2:</b> Pathophysiology of the spinal cord and brainstem. Disorders of consciousness
11	Pathophysiology of water and ion metabolism
12	Anemias. Acid-base balance disorders
13	Repetition
14	Substitution. Credit
