

# SAFE ENVIRONMENT

Safety is key for us at the university and faculty. In this leaflet, you will find important information and procedures on how to react in case of a security incident.

## 1. Be aware of your surroundings and let someone know if something seems dangerous to you.

- a) It could be a suspicious object or person.
- b) Always contact any faculty staff member you trust. You can also contact the LFP security guard or LFP security specialist.
- c) If a physical incident occurs or there is another serious danger, call the police directly at tel. 158.

## 2. Do not bring weapons or other self-defense means into the building.

If you do not feel safe, turn to the LFP security guard or LFP security specialist.

## 3. In the event of a serious physical incident (including shooting):

- a) If you can, RUN!
- b) If you cannot run, HIDE!
- c) If you cannot hide, FIGHT!

Once you are safe, call 158.

## 4. If you find a suspected IED (improvised explosive device):

- a) Do not touch the object; don't open it under any circumstances.
- b) Move to a safe distance. If you can see the object, you are not in safety.
- c) Inform the LFP security guard, the police at tel. 158.
- d) Where possible, strongly caution others around you not to approach the object.

## 5. If you feel anxious at the faculty,

or need psychological consultation, do not hesitate to contact the faculty ombudsman at tel. 377 593 346 , email: [ombudsman@lfp.cuni.cz](mailto:ombudsman@lfp.cuni.cz), or any of the crisis and intervention psychological help lines.
