4EU+ WORKSHOP

FLUID MANAGEMENT IN SEPSIS

This event is the outcome of the Charles University 4EU+ mini-grant A Pilot, Randomized, Double-Blinded Controlled Study of Hemodynamic and Acid Base Effects of 0,5 Sodium Lactate and 3% Saline Solutions in Septic Shock Patients (Solace Sepsis) MS/4EU+/2024/06.

Wednesday | 11th September 2024 | 2:00 - 6:00 p.m.

Faculty of Medicine in Pilsen, Charles University, Azure lecture room
alej Svobody 1655/76, 323 00 Plzeň

Charles University, Faculty of medicine in Pilsen, Biomedical center
Medical Intensive Care Unit, 1st Department of Internal Medicine,
Teaching Hospital in Pilsen - Department of Anaesthesia and Intensive Care,
Copenhagen University Hospital

Submit application by 6th September 2024

via email krizm@fnplzen.cz

Event schedule:

1. Sepsis | Basics of diagnosis, pathophysiology and clinical decision making | Müller J.
2. The role of lactate in fluid resuscitation of the critically ill | Kříž M.

Coffee break

3. Intravenous fluid management - Latest update | Molin C., Nielsen Ch. G.
4. (Non)invasive haemodynamic monitoring tools | Molin C., Nielsen Ch. G.

Coffee break

5. Ultrasonographic approach to evaluate fluid responsiveness - hands-on course | Nalos M.
