

Prof. Ranjan Perera

Center for RNA Biology at Johns Hopkins All
Children's Hospital, Johns Hopkins University
School of Medicine

The novel urine-enriched RNA markers to detect prostate cancer in men and their therapeutic importance

October 15, 2025 | 15:00

Green Lecture Room, campus LFP

Prof. Perera is director of the Center for RNA Biology at Johns Hopkins All Children's Hospital, a senior scientist in the Cancer & Blood Disorders Institute and a professor of oncology in the Johns Hopkins University School of Medicine. He also has a secondary affiliation with the Johns Hopkins All Children's Institute for Fundamental Biomedical Research. Prof. Perera worked for several biotech and pharmaceutical companies before joining the faculty at Mercer University's School of Medicine as an associate professor and director of genomics and research and development at Anderson Cancer Institute at Memorial Health Medical Center. He then worked for the Sanford Burnham Prebys Medical Research Institute before joining Johns Hopkins All Children's Hospital in 2018. He is also an adjunct faculty in the NCI-designated Cancer Center at Sanford Burnham Prebys Medical Research Institute in La Jolla, California.
